Travel Guidelines for Bermuda

- Both vaccinated and non-vaccinated travelers are now welcomed to Bermuda
- Vaccinated and non-vaccinated guidelines can be found at [Travel Requirements for Visitors](#)

As of 25 October 2022, the requirement for pre-arrival or pre-departure testing, arrival testing, and day 4 testing for travellers will end. The requirement for unvaccinated visitors to provide proof of health insurance which covers Covid medical expenses will remain.

- All travelers aged 2 and older must complete a Bermuda Travel Authorization Form
 - Form can be found at [Bermuda Guide for Safe Travel // Go To Bermuda](#)

Travel Authorisation Applications can be submitted up to ONE month before travel to permit early review of your vaccine record by the Quarantine Authority. Early application for your Bermuda Travel Authorization is strongly recommended.

To avoid delays and approval, submit your completed Travel Authorization form within **two calendar days or at least 36 hours** before your arrival into Bermuda.

We advise that you submit your travel documents between the hours 8am and 8pm (ADT) as they are reviewed daily during operating hours. Please allow up to 24 hours for approval.

For any further guidance please revert to the Bermuda's Tourism Authority site: [Bermuda Guide for Safe Travel // Go To Bermuda](#)

To find out the status of your application, please call TOLL FREE 1-833-570-2594 or 1-441-444-2498 or email TAapprovals@gov.bm
